

# Misson Primary School

*You already have your wings, we will help you fly*

Dear Parents and Carers

Please can you help us with an important safety issue that effects people accessing our school, and local residents.

We have been contacted by several residents who have expressed concerns that parking along the school drive and turning circle is blocking the vehicle access to their properties. There has also been an incident recently where an emergency ambulance struggled to leave the school drive which delayed it arriving at hospital.

The school driveway is a private road for the use of residents, and those needing vehicle access to the school site, such as deliveries. Please could you help us keep this important access road clear for those who need to use it, by not parking on the drive, turning circle or in the staff carpark. In doing this, it will also make it safer for parents and children who walk up the drive to access both Pre School and the main school building.

Thank you in advance for your help in keeping everyone in our community safe.

John Birch
